### Bike Carriers (updated 2021-02-22)

Brand	Model	RMC (tested until 2018)	RMC pin (new)
			
<p>* The Spinder Eagle cannot be easily taken off. Turn it to the normal position for taking it off the RMC, elevate it for approx half an inch, turn it a bit towards yourself and take it off the RMC.</p> <p>** The bike carrier should put on the RMC in a slightly tilted position.</p> <p>*** Will be replaced by a 4-sided mountingclamp. After it has been replaced the carrier will not fit this type of RMC anymore.</p>
